

Environmental Policy

SolutionsPT, in its operations as a leader in Industrial IT Solutions, has achieved the ISO14001:2015 standard and is committed to a programme of caring for the environment and its compliance obligations.

The organisation, based at Cheadle Royal Business Park, ensures that all its operations are carried out in conformance with the relevant legal and other requirements to which the organisation subscribes in relation to the environmental aspects of our activities, products and services.

SolutionsPT seeks to protect the environment and to prevent pollution, reduce energy consumption, minimise waste, promote recycling and, where possible, work with suppliers who themselves have sound environmental policies.

SolutionsPT's commitment to continually improving their environmental performance is achieved by setting annual environmental objectives and targets which are monitored and reviewed regularly. These are communicated to all interested parties, as needed.
